

# Smart-View Alert and Tamper

*Be in control of your safety*

**Smart-View** is the first Sigfox IoT Alert mobile application.

Safety in South Africa is a concept we all fear. South Africa being one of the countries with the highest crime rate in the world, it is crucial to ensure your family's safety.

What better way to have peace of mind that your family is safe is, than by tracking them on their daily routines if they alert you they in danger and being notified if any tampering is detected on your property such as doors, windows or gates opening.

This is now possible with Smart-View Alert incorporating Smart-View tamper. Using the technology of IOT to your advantage by giving you instant notifications.

## Smart-View Alert Benefits

- **Instantaneous Alert SMS with the following details.**
  - **Alert Approx GPS Location.**
  - **Updated GPS Location once alert logs in the GPS.**
  - **Phone GPS Location.**
  - **Phone Battery Level.**

Mike Thomas In Danger

## How it works

# Smart-View Tamper

VisioTamper is smartly integrated inside the alert mobile application. Be instantly alerted of any tampering detected on devices placed on places of entry such as doors, windows etc.

Smart-View tamper offers a list of all tamper detections. This allows for tamper devices at your disposal to be arm and disarmed according to your comfort.

## Smart-View Tamper Benefits

- **Effortless control over your security**
- **Instantaneous Notification of any tampering detected**
- **Remote access from your mobile**
- **Peace of mind knowing safety measures are in place**
